

Peramanthan Sathyamoorthy

Curriculum Vitae

Summary

✉ : [in](#) [G](#) [X](#)

Senior Software Engineer and naturalized **Swedish** citizen of **Indian** origin with over *9 years* of experience in *building* scalable web applications and *leading* development teams. Holds **Master's degrees** in **Computer Science** and **Operations Research**, providing a strong foundation in both theoretical and applied aspects of technology and optimization. Proven expertise in **JavaScript**, **TypeScript**, **React.js**. Demonstrated leadership in integrating innovative solutions and driving efficiency in startup environments. Experienced educator with a passion for mentoring and fostering innovation through technology.

Recent Relevant Recorded Experiences

- Jan 2023 - Present **Senior Software Engineer (24 months)**, *Oneflow AB, Digital Signature and Contract Management Platform*, Stockholm 🇸🇪
- **Strategically integrated TypeScript** into a mixed legacy codebase with FlowType and JavaScript, resulting in a 70% reduction in type-related errors, significantly enhancing code reliability and maintainability. Leveraged previously introduced zod's type inference for robust type hinting in business data.
 - **Automated the conversion of JavaScript** modules to TypeScript with a custom script preserving version control history, saving over 200+ hours of manual work, accelerating development timelines.
 - **Spearheaded architectural improvements** by centralizing Access Control List (ACL) permissions into a streamlined, distributed module, improving the codebase's scalability and maintainability, setting the foundation for future extensibility.
- Oct 2021 - Dec 2022 **Engineering Team Lead (15 months)**, *Oneflow AB*, Stockholm 🇸🇪
- **Co-led the development of a new JSON-based rich text editor** seamlessly integrating with legacy HTML, increasing user satisfaction by 60% and providing a modern, cohesive editing experience.
 - **Mentored and empowered the development team** to a self-organizing model, overseeing hiring and onboarding while instilling a continuous improvement culture. This resulted in increased productivity, stronger ownership, and scalable team practices.
 - **Pioneered an end-to-end testing transformation** with Playwright, starting with an innovative mob testing approach that significantly reduced regressions. Spearheaded a full rewrite of the testing suite, improving test coverage and reducing testing time by 30%.
 - **Engineered a lightweight Zod-based data validation library** which streamlined data validation and minimized runtime errors.
- Mar 2019 - Sep 2021 **Full Stack Integration Engineer (31 months)**, *Oneflow AB*, Stockholm 🇸🇪
- **Established the Integration Team** from the ground up, creating foundational processes and best practices for long-term scalability, while strategically aligning integration solutions with business needs.
 - **Designed multi-client applications** with Python and React.js, facilitating seamless integrations with platforms like HubSpot and SuperOffice, expanding Oneflow's reach and interoperability.
 - **Stabilized and enhanced the Public API**, which enabled a robust third-party integration ecosystem, contributing to client satisfaction and platform versatility.
- Apr 2017 - Feb 2019 **JavaScript Developer(23 months)**, *Oneflow AB*, Stockholm 🇸🇪
- **Innovatively Integrated React Router into a Backbone.js-based client** to build Identity and Access Management, facilitate faster prototyping cross-linked user management and efficient testing.
 - **Optimized CI build processes**, reducing build times by 40%,
 - **Contributed to modernizing the legacy codebase** by transitioning to React.js.

Stockholm, Sweden

☎ +46 737 641 917 • ✉ sathyam.peram@gmail.com

- Jan 2016 - Mar 2017 (1 year 3 months) **Full Stack Developer**, *Weavler AB*, *An accessible e-commerce platform for artisans with 1.6M SEK PTS grant 2015*, Stockholm 🇸🇪
- **Managed AWS cloud infrastructure**, reducing operational costs by 40%.
 - **Administered MongoDB databases**, ensuring high availability and performance.
 - **Integrated services** like Mandrill, Slack bots and PayPal, enhancing platform functionality.
 - **Created an intelligent notification and chat bot** for onboarding and FAQs.
 - **Implemented SEO strategies** with server-side rendering.
 - **Developed a open source babel plugin** to quickly implement translations to the entire project.
 - **Enhanced accessibility** with text customization and color filters, aligning with WCAG standards.
 - **Experimented advanced features** like speech synthesis and recognition, improving accessibility.
 - **Designed responsive** email templates for email clients and browsers.

Internships

- Jul 2015 - Sep 2015 (3 months) **Software Engineer Intern (Summer Project)**, *Bumbee Labs*, Stockholm 🇸🇪
- **Applied MongoDB aggregation framework** and map-reduce to generate pre-aggregated and structured reports from millions of samples with raw data.
 - **Enhanced full-stack dashboard application** with gulp build and assisted implementing Key Performance Indicators.
 - **Explored the feasibility of migrating the tech stack** to Reactjs and the Eve Python framework.

Top Software Engineering Skills at Work

- Development *Git, JavaScript, TypeScript, Reactjs, Redux, Alt.js, MongoDB, AWS, Bamboo(CI/CD)*
- Practices *Agile, TTD, BDD, E2E, Pair/Mob Programming and Testing*
- Soft Skills *Leadership, Team Building, Mentorship, Cross-Team Collaboration, Strategic Epic Planning, Problem-Solving, Communication, Creative Thinking*

Recent Certifications and Courses (September 2024 - Present)

- Terraform *HashiCorp Terraform Associate Exam Cram [O'Reilly Live Event] 2 days Live Course*
- Langchainjs *LangChain Chat with Your Data*
- Langchain.js *Build LLM Apps with LangChain.js*

Open Source Contributions

- Jan 2017 - Feb 2017 *Babel Plugin: FormatJS compatible react-intl translation hint modules generator*

Publications

- 2017 *Profiling Energy Efficiency and Data Communications for Mobile Internet of Things*
- 2015 *Energy Efficiency as a Orchestration Service for the Mobile Internet of Things*

Education

- 2010 - 2016 **Master of Science in Computer Science**, *Uppsala University*, 🇸🇪, Grade: 3.92/5
Thesis: *Enabling Energy-Efficient Data Communication with Participatory Sensing and Mobile Cloud, Cloud-assisted Crowd-sourced Data-driven Optimization*
- 2007 - 2009 **Master of Science in Operations Research and Computer Applications**, *National Institute of Technology*, Tiruchirappalli, Tamilnadu, 🇮🇳, Grade: 8.08/10
- 2004 - 2007 **Bachelor of Science in Mathematics**, *Kadhir Mohideen College*, Affiliated to Tiruchirappalli Bharathidasan University, Adirampattinam, Thanjavur, Tamilnadu 🇮🇳, Grade: 74.09 %
