

Peramanathan Sathyamoorthy

Senior Software Engineer

Profile

Senior Software Engineer with over *9 years* of experience in *building* scalable web applications and *leading* development teams. Holds **Master's degrees** in **Computer Science** and **Operations Research**, providing a strong foundation in both theoretical and applied aspects of technology and optimization. Proven expertise in **JavaScript, TypeScript, ReactJS**. Demonstrated leadership in integrating innovative solutions and driving efficiency in startup environments. Experienced educator with a passion for mentoring and fostering innovation through technology.

Work experience

Senior Software Engineer (24 months)

*Oneflow AB, Digital Signature and Contract Management Platform
Stockholm, Sweden*

- **Strategically integrated TypeScript** into a mixed legacy codebase with FlowType and JavaScript, resulting in a 70% reduction in type-related errors, significantly enhancing code reliability and maintainability. Leveraged previously introduced Zod's type inference for robust type hinting in business data
- **Automated the conversion of JavaScript** modules to TypeScript with a custom script preserving the version control history, saving over 200 hours of manual work and accelerating development timelines
- **Unified distributed ACL permissions** into a single utility module, managing complex contexts and user roles (owner, guest) to simplify maintenance, migration and enhance scalability.

Tools Used: *TypeScript, ReactJS, Jest, Enzyme, Testing-library, Playwright, MySQL, Express.js, Flask, Python, Webpack*

Engineering Team Lead (15 months)

Oneflow AB

Stockholm, Sweden

- **Co-led the development of a new JSON-based rich text editor** seamlessly integrating with legacy HTML, increasing user satisfaction by 60% and providing a modern, cohesive editing experience.
- **Mentored and empowered the development team** to a self-organizing model, overseeing hiring and onboarding while instilling a continuous improvement culture. This resulted in increased productivity, stronger ownership, and scalable team practices.
- **Pioneered an end-to-end testing transformation** with Playwright, starting with an innovative approach to replicate mob testing scenarios. This significantly reduced regressions and boosted efficiency. Later, I spearheaded a complete rewrite of the end-to-end testing suite in Playwright.
- **Engineered a lightweight Zod-based data validation library** which streamlined data validation and minimized runtime errors.

Tools Used: *JavaScript, TypeScript, ReactJS, Webpack, Jest, Zod, Enzyme, Testing-library, Playwright, MySQL, Nodejs, Express.js, Flask, Python*

Full Stack Integration Engineer (31 months)

Oneflow AB

Stockholm, Sweden

- **Established the Integration Team** from the ground up, creating foundational processes and best practices for long-term scalability, while strategically aligning integration solutions with business needs.
- **Designed multi-client applications** with Python and React.js, facilitating seamless integrations with platforms like HubSpot and SuperOffice, expanding Oneflow's reach and interoperability. Helped Microsoft Dynamics and Salesforce Development with reviews and frontend decision making. Built connector application extensions for the CRM integrations and Teamtailor
- **Stabilized and enhanced the Public API**, which enabled a robust third-party integration ecosystem, contributing to client satisfaction and platform versatility.

Tools Used: *Python, Reactjs, CRMs (HubSpot, SuperOffice, Microsoft Dynamics, Salesforce), Connexion, Integrations*

JavaScript Developer (23 months)

Oneflow AB

Stockholm, Sweden

- **Innovatively Integrated React Router into a Backbone.js-based client** to build Identity and Access Management, facilitate faster prototyping cross-linked user management and efficient testing.
- **Optimized CI build processes**, reducing build times by 40%.
- **Contributed to modernizing the legacy codebase** by transitioning to React.js.

Tools Used: *Python, Reactjs, CRMs (HubSpot, SuperOffice, Microsoft Dynamics, Salesforce), Connexion, Integrations*

Full Stack Developer

Weavler AB, *An accessible e-commerce artisans platform (with 1.6M SEK PTS grant)*

Stockholm, Sweden

- **Managed AWS cloud infrastructure**, reducing operational costs by 40%.
- **Integrated services** like Mandrill, Slack bots, and PayPal, improving platform functionality. **Implemented SEO strategies** with server-side rendering.
- **Designed responsive** email templates for email clients and browsers.
- **Created an intelligent notification and chat bot** for onboarding and FAQs. **Developed a open source babel plug-in** to quickly implement translations to the entire project. **Enhanced accessibility** with text customization and color filters, aligned with WCAG standards. **Experimented advanced features** like speech synthesis and recognition, improving accessibility.

Tools Used: *JavaScript, Express, Reactjs, Alt.js, Accessibility, SSR, MongoDB, Babel Plugin(OSS)*

Software Engineer Intern (Summer Project)

Bumbee Labs AB

Stockholm, Sweden

- **Applied MongoDB aggregation framework** and map-reduce to generate pre-aggregated and structured reports from millions of samples with raw data.
- **Enhanced full-stack dashboard application** with gulp build and helped implement key performance indicators.
- **Explored the feasibility of migrating the tech stack** to Reactjs and the Eve Python framework.

Tools Used: *MongoDB, AngularJS, Python, Heroku, Laravel (PHP), System Monitoring*

Technologies

Familiar and can relearn quicker

AI & Infra(New): LangChainjs, LLMs, Terraform

Workflow: Graphite

Fullstack: Remix, Nextjs, Astro, Solid-start

Languages: C, C++, Java, R, Erlang, Elixir, Rust

Data Science & ML: R, Python, NumPy, Panda, Scikit-learn

Front-End tools: Esbuild, Vitejs

API Frameworks: Django, Eve, Flask

Databases: MySQL, Postgres, MongoDB

Deployment: AWS (EC2, S3, IAM, ELB), Heroku, Netlify, Vercel, Fly.io

Miscellaneous: Data Visualization, KPI Implementation, SEO Optimization, Accessibility Compliance, Speech Recognition, Chat Bot Development

Publications
